

Incident Report

Date May 16, 1994

Minor

Name Liam Kessie
Title/position Manager/Toys

Manager

Name Drake
Title/position Nursery Supervisor

Incident

Date May 16, 1994
Time 11:48 pm
Location Delivery – stork department

Description of incident

Liam Kessie violated his security clearance when he broke into the nursery area. He managed to build a 35' ladder saved from scrap lumber in the toy manufacturing department, which he was managing at the time. Nothing damaged, nothing missing.

Explanation by minor

I was made aware that one of the babies scheduled to be delivered the next day, was a close family member of mine. I just wanted to see her and kiss her cheek before she left, since it would be nearly 18 years until I got to see her again. I didn't take any photos, or change any delivery instructions. I just wanted to see my aunt.

Witnesses

No witnesses came forward, but a security camera caught Liam in the restricted area. The video tape accidentally got erased and there is no evidence on file. However, Liam admitted his wrong doing, when first confronted about this incident.

Action to be taken

☐ Verbal warning ☐ Probation ☐ Dismissal
☒ Written warning ☐ Suspension ☐ Other

Explain Since we could find no harm done to any babies, and since Liam has been very helpful in heading up our toy construction dept. for two years, we issued this written warning. This will be a permanent part of his file, destroyed upon his birth.
